OptimaBio

Biodegradabile
e Compostabile 100%

Biodegradable and Compostable 100%

Perchè Eco e Bio e COMPOSTABILE?

Pensate a quanto l'acqua sia un bene prezioso, da proteggere e non sprecare, lavare un tovagliolo di cotone è certamente meno ecologico, necessita di acqua per lavarlo, detersivi e candeggianti per renderlo riutilizzabile, tutto questo è meno ecologico e più inquinante!

Il tovagliolo monouso Optima è certamente la soluzione a tutto questo.

Come un tovagliolo di stoffa, il tovagliolo Optima sarà sempre perfetto e senza imperfezioni.

Tovaglie e tovaglioli inoltre, una volta tolti dalla vostra tavola, potranno, se lo vorrete, essere impiegati come panni per la pulizia della vostra cucina.

Ovviamente, nel rispetto della Legge ci vuole pure il Certificato ufficiale: e noi l'abbiamo!

Su tutti i nostri tovaglioli certificati Biodegradabili e compostabili troverai stampato il nostro marchio

Our brand Bio is printed on all our Biodegradable and compostable certified napkins

Why bio and eco and COMPOSTABLE?

Think about the importance of water as a precious resource, to be protected and not to be wasted.

Washing a cotton napkin is certainly less eco-friendly, since you need water to wash it as well as detergents and bleaches to make it reusable.

And all that is less environmentally friendly and more polluting!

The Optima disposable napkin is certainly the right solution to that.

Like a cloth napkin, the Optima napkin will always be perfect and flawless.

And after removing your tablecloths and napkins from your table, you can also reuse them, if you want, to clean your kitchen.

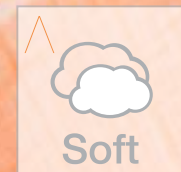

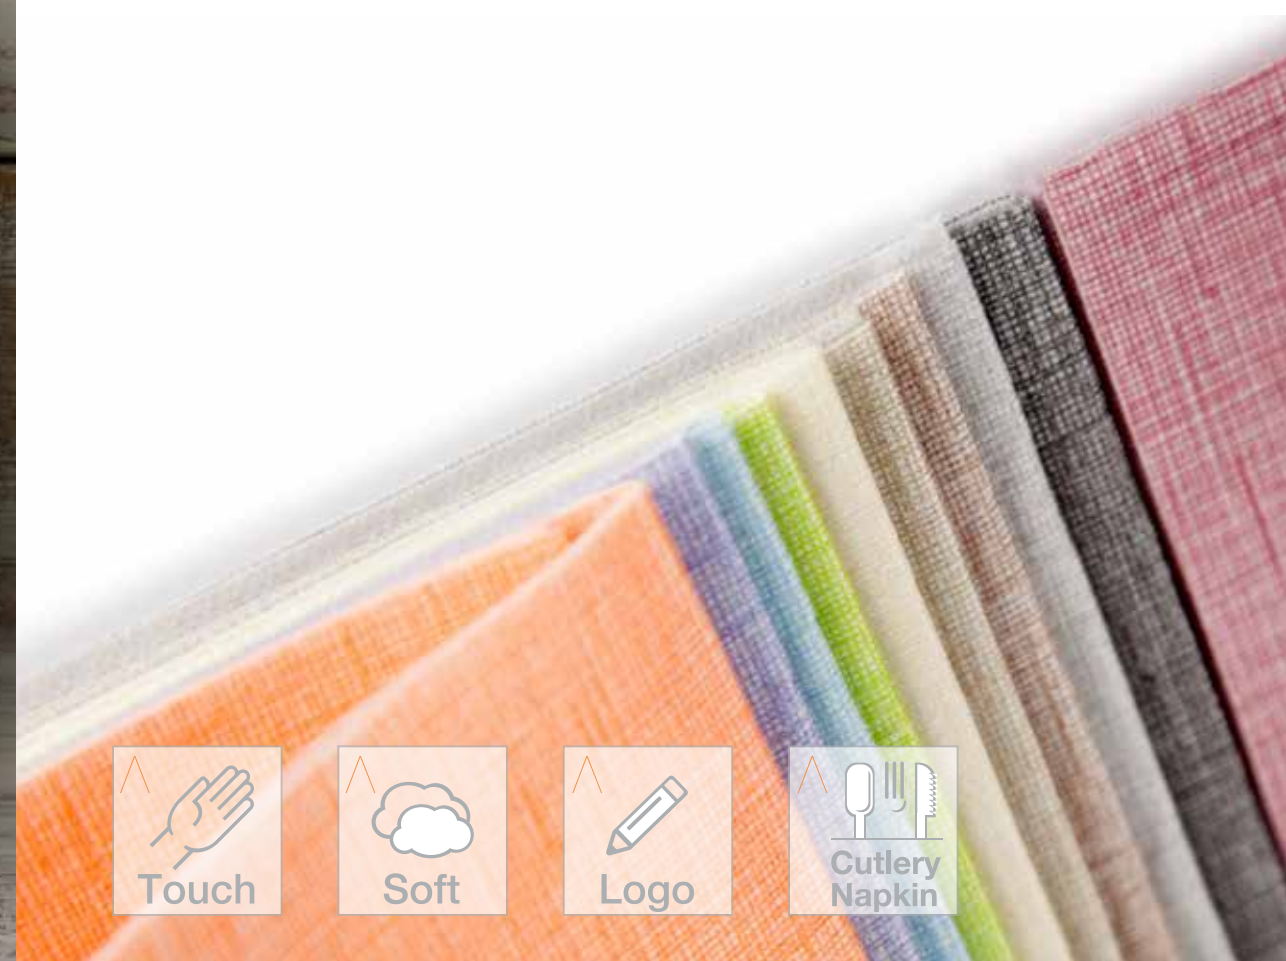

Obviously, according to the law it takes even the official certificate: and we have it!
